Miss White, eighteen years old and a salesgirl, boards with the family of Charles Nieman on the fifth floor. He told the police she frequently walked in her sleep, and for that reason was given a room opening on a fire escape.

Early to-day she opened the window and walked out, falling through the escape opening. She hit a clothesline at every floor, which broke her fall. George Stewart, janitor of the building, who lives on the ground floor, heard something rattling against his window and found they were clothespins. Outside he found Miss White. She was tossing the wooden pins to attract attention. He helped her up and she insisted, when she found she could stand, on walking back upstairs, but he called Policeman Pepper, who sent for an ambulance.
